PROFESSIONAL SUMMARY

IT support professional transitioning into infrastructure engineering, with experience in HRIS technical support, enterprise hardware troubleshooting and a C# development internship. AWS Certified (Cloud Practitioner, AI Practitioner) with working knowledge of TCP/IP networking, Windows Server, Active Directory and Linux. Builds AWS, automation and reporting projects to solve real operational problems.

EXPERIENCE

HRIS Technical Support | Jul 2026 - Present

First Maritime Shared Services / PTC Group, Makati City

- Provide Level 1 support for the HR information system used by seafarers and office staff, resolving user issues and escalating complex cases.
- Support the HRIS implementation with the vendor, including data gathering and template completion.
- Built a Template Tracker to automate and monitor implementation template progress.
- Document procedures and known fixes to speed up issue resolution.

Field / Onsite Engineer | May 2025 - Nov 2025

HP Service Center / Actionlabs IT Services Phils Corp, Makati City

- Installed, repaired and troubleshot HP printers, POS systems, laptops and workstations at multiple client and partner sites.
- Performed OS installation, hardware and software troubleshooting, and incident handling in enterprise environments.
- Communicated directly with clients and partners to diagnose issues, set expectations and document resolutions.

IT Intern / C# Programmer | Jan 2024 - Jul 2024

TechFactors Inc., Quezon City

- Developed in C# across front-end and back-end for the company's applications.
- Gained hands-on exposure to the full software development workflow alongside the development team.

PROJECTS

- **Personal Portfolio / Interactive Resume Site:** HTML site hosted on AWS EC2 with Nginx, with source managed on GitHub.
- **AWS, Automation and Reporting Projects:** Ongoing personal projects building cloud, automation and reporting skills toward an infrastructure engineering role.
